Saint-Jérôme, May 30th, 2016

For immediate release

Foliot Furniture celebrates 25 years in style!

2016 marks the 25th anniversary of Foliot Furniture, a furniture manufacturer for the residence hall and hospitality markets. In constant growth since its inception, Foliot Furniture now has two plants in North America (St-Jerome and Las Vegas), more than 500 permanent employees and has furnished over 500,000 rooms across the continent. To mark this significant milestone in the history of the family business, a number of special events and activities will be organized throughout the year.

To this end, a party worthy of a 25th anniversary was held last April on Friday the 22nd; Daniel Foliot, President and Founder, along with his team celebrated the 25th anniversary of the company at a special evening bringing together family, friends, employees, customers and suppliers who have marked the history of the company since its beginnings in 1991. This event was a way of thanking all those present for their support and contribution to the company's success. The new renovated St-Jerome office was the ideal place to welcome guests for a cocktail where music, appetizers and Foliotinis, Foliot's traditional cocktail renowned with its customers, were at rendezvous.

The guests were then guided to a section of the plant specially furnished and decorated to host the 160 people present for the main attraction. On the menu: lobster buffet and inspiring speech by Daniel Foliot on his humble beginnings, the company's successes, the more difficult moments that Foliot has overcome, as well as future projects.
